

Phone Policy

Use of mobile phones and tablets.

In general, mobile units should not be used when they could pose a security- or safety risk, or when they distract from work tasks. Never use a mobile phone while driving a car.

Use of phones for non-work-related tasks while on duty shift offshore is not allowed.

A person must only use a mobile unit such as phones and tablets for personal use during breaks from operations where the phone may be used away from the operational workstation. This to remove distractions from critical positions and to prevent potential accidents or undesired incidents.
